

# Terry Schools Closure Management Plan - Remote Learning & Food Services

## **General Staff Expectations:**

- Teachers will be available Monday through Friday from 8:00 AM-3:30 PM via email, phone, or video conferencing to answer questions or assist students with work.
- Grades K-3 will work between packets and online work based on teacher discretion
- Grades 4-12 will be online using the Google Classroom learning platform. This allows students to receive assignments, and turn in assignments, without returning to the building. All interactions will be completed online.
- There will not be access to the building for students or parents without permission & supervision from staff

## **Chromebook and Material Delivery into Student/Parent Hands:**

Chromebook usage agreements were part of the start of year paperwork this year, so additional agreements are not needed.

As we have a number of staff in quarantine, we have had to change the material pick up routine from last year as follows:

Materials will be taken to central locations for each building - Friday from 3-6 and Monday 9-12:

- The Bolin student material will be in the Cafeteria (k-3) and placed on lunch tables. 1 parent may enter and get their child's supplies or stay in their car and a staff member will bring it out.
- The Grandey - parents may park and come to the building where staff will either deliver their materials or have them get them from their students desk
- The High School will operate from the lobby with someone monitoring the hallway/door and allow a parent or student to get what they need from lockers and promptly send them on their way.

## **Special Education Services**

- Provided by the special education teacher and/or Resource Room instructional assistant.
- Scheduled conference calls will need to be developed and completed weekly in areas where services are mandated by the student IEP.
- The district will need to ensure these families have the accessibility necessary to provide these services.
- IEP meetings will need to be held using electronic conferencing

## **Breakfast/Lunch**

Starting Monday, lunch will be available between 11-12. Parents in town can come to the front door of the school and pick up a sack with lunch/breakfast in it.

Falon, like last year, a bus or other school vehicle will be sent to the Post Office and be there from 11:30-12:30
